Background

Mubvuma co-founded Lexware Inc., a tech company based in Zimbabwe growing as a leader in innovative technological solutions for the legal profession in Africa. The idea of the company began in 2014 when he and a university friend created a program called Lex Mobile, which allowed law students to access court judgments and legislation from smartphones without the need for the internet.

About Pindula

Pindula is a place to find information about local things on the internet. We do it a lot like Wikipedia, except everything is hyper-local. We started work on Pindula because we needed something like it. There's so little useful information about local things online and we're working to change that
